About Us

STS PayOne is a leading payment technology provider operating in the MENA region. Utilizing its in-house developed software, STS PayOne is transforming the foundations of digital payment acceptance and revenue collection for merchants from various business sectors.

With direct integrations to domestic/ international card schemes, on-prem acquiring systems and alternative payment methods, STS PayOne enables the acceptance of digital payments across multiple channels including eCommerce websites, smartphone applications, POS terminals, and pay-by-link.

STS PayOne offers a unique partnership model for resellers, which includes full white-labeling along with managed operations and first level technical support services.
